What has helped with recruitment and enrollment?

"Collaboration with the kidney transplant team has been instrumental for our recruitment. We rely on communication and consultations with each other, including constant reassessment, diversification and change of our recruitment strategies according to the needs of our transplant centre, as well as flexibility in accommodating to patients' preferred times and needs. We are grateful to have an amazing team of people working together."

FUN FACT: Our program, The Ajmera Transplant Centre, is named after Sam Ajmera, who's company produces Stonefire flatbreads and naan.
